EDUCATION

Sheridan College - Oakville, ON

Sep 2022 - Dec 2025

Information Systems Engineering (3-year advanced diploma; equivalent undergraduate curriculum in CS fundamentals, OOP, and systems design)

SKILLS

Languages: Python, Java, JavaScript, TypeScript, Kotlin, C++, SQL, React, Angular, HTML, CSS, Node.js.

Cloud & Architecture: AWS, Docker, CI/CD Pipelines, Software Development Life Cycle (SDLC).

Databases: PostgreSQL, MySQL, MongoDB, Supabase, Oracle, Hadoop, Scala, Kafka.

Tools & Platforms: Git/GitHub, Jira (Agile/Scrum), Linux Environments, Object-Oriented Design Patterns.

Certificates: [Python Data Science](#), [Cloud Developer Trainee](#).

EXPERIENCE

Full-Stack Developer | [Hackville](#)

Aug 2025 - Feb 2026

Hackville 2026 - 9th Iteration of Canada's first college-run Hackathon - Oakville, ON

- Built and maintained full-stack web features using React and Node.js within an Agile sprint cadence, collaborating with a cross-functional team of designers, PMs, and QA members.
- Took ownership and initiative in approaching technical challenges, successfully reducing frontend rework by 25% through continuous operational improvements.

Full-Stack Developer

Sep 2024 - Dec 2024

Sanskrita Bharati - Mississauga, ON

- Applied strong communication skills to conduct requirement elicitation with stakeholders, translating abstract design specifications into secure, high-performing technical deliverables.
- Embraced a continuous learning methodology ("Build. Test. Learn.") to synthesize operational feedback, refining application architecture within an Agile decision-making framework.

Student Ambassador

Oct 2024 - Dec 2025

Sheridan College - Oakville ON

- Presented complex academic and facility information clearly to diverse audiences, ensuring a high-quality client experience for guests.
- Led guided campus tours to showcase facilities, academic programs, and student life to guests.

Member of the Board of Directors

May 2023 - Apr 2024

Sheridan Student Union Inc. - Oakville, ON

- Directed strategic governance and financial oversight to drive organizational accountability and success.
 - Facilitated board and presidential elections to ensure a seamless and transparent leadership transition.
-

PROJECTS

Cookie Business Site | [Link to Project](#)

Jan 2025 - Dec 2025

Capstone Project - Oakville, ON

- Built a high-performing, customer-facing e-commerce application utilizing a Microservices architecture (Node.js/React) to optimize the end-user transactional journey.
- Integrated frontend frameworks with robust backend REST APIs and SQL databases to deliver an exceptional, data-driven client experience.

Big Data Project

Oct 2025 - Dec 2025

Academic Project - Oakville ON

- Engineered a scalable, end-to-end data pipeline using Java, Hadoop, and Scala, processing 7 years of energy data to generate actionable insights and high-quality analytics.
- Developed real-time data streaming applications using Kafka, integrating CI/CD principles and secure configurations to ensure a resilient, maintainable infrastructure.
